

YEAR 3/4 HOME LEARNING PICK AND MIX GRID

	Geography	History	RE / PSHE	French	The Arts	Science
Expand	Research one country from South America. Include: capital city, flag, language, population, landmarks, physical and human features, traditional food or clothing.	Create a fact file or a poster for a Viking long boat. Include: What it looks like, features like the figurehead and shape.	Create your own class prayer that reminds us of our school values or school rules.	Research which countries they speak French in. Is it their primary language or just one of many? How many can you find?	Research Aboriginal life and how they used colours to create their artwork. Aboriginal art uses warmer, earthy colours such as chocolate browns, oranges, deep rich reds and some lighter, brighter colours including yellows and creams.	What is sound? Can you explain how sound travels? Research any inventions created to help us hear better or that involve sound. How do they work? Who invented them?
Creative	Create a map of your local area or community including map symbols and grid references.	Make a model of a Viking long boat.	Create your own ideal world. Make sure it shows how it is the same or different from our real world	Make a poster or display to tell us about yourself and/or your family. Use key vocabulary to name the people in your family in French.	Create a piece of aboriginal artwork using the techniques and colours which would represent both the climate and the resources available from the local environment of Aborigines.	Can you create a diagram or model of the Human digestive system? Don't forget to label the key organs and explain their function.

Aim to bring in at least 6 pieces of work across the term.
