Wenlock CE Academy

PE and sport premium spending and impact

Academic year 2025 to 2026

Total listed spending: £21,385.44. Intended impacts are shown below. Add evidenced outcomes before publication.

Spend area and key areas	Cost	Intended impact	Evidence and actual impact
Coaching and football mentoring **Staff development; regular activity; broader opportunities**	£5,000.00	Intended impact: build pupils' skills, confidence and teamwork through additional coaching and mentoring. Where coaching includes staff development, improve staff confidence and practice.	Significant support within SEMH needs across the school, providing and building on our emotional literacy to regulate emotions and utilise them to thrive within the school environment.
Bikeability **Regular activity; broader opportunities**	£370.00	Intended impact: improve cycling skills, confidence and awareness of safe cycling, supporting active lifestyles.	Increase in percentage of children achieving their learn to level 1 and 2 outcomes whether riding the bike outside of the school or inside on their bikes.
Activity day **Profile of sport; broader opportunities**	£200.00	Intended impact: introduce pupils to activities and encourage enjoyment, participation and willingness to try new challenges.	Children have been exposed to a wide variety of high-quality sport sessions from a wide variety of different sports ranging from traditional invasion and net and wall games to more recent activities such as archery and kinball. All children within the school have had the opportunity to experience this.
Equipment for active play and sport **Regular activity; broader opportunities**	£532.94	Intended impact: support access to active outdoor play and sport. Purchases include netball post protection and Wellington boots.	Allowed the utilisation of active and experimental play at break and lunchtimes with the encouragement of managing their own level of risk within these times. High-quality resources available to support the introduction of newfound sports such as pickleball, to name but one.

Sports affiliation **Competitive sport; profile of sport**	£595.00	Intended impact: enable access to school sport opportunities, events and competition through affiliation.	In total, over 200 children across the school, including 90 of whom were pupil premium, participated within a school sports club or represented the school within competition. This ranged from those on the SEND register winning a silver medal in the Boccia tournament to the competition of girls in our local football league and a mix of girls and boys present within the upper and lower phase gymnastics sessions.
Swimming provision **Regular activity; broader opportunities**	£14,687.50	Intended impact: improve swimming confidence, stroke technique and water safety. Confirm the amount attributable to eligible top-up provision after core lessons.	200 children participated in the swimming programme, receiving 2 weeks of continuous swimming provision, with the other children accessing the programme next year. The overall data from post - pre-assessment showed a massive increase in swimming safety in the water and confidence within the pool.

Funding and outcome summary

Year 6 swimming and water safety

Pupils swimming at least 25 metres competently, confidently and proficiently	**40%**
Pupils using a range of strokes effectively	44%
Pupils performing safe self-rescue in different water-based situations	71%
Year 6 cohort size and assessment date	86

Sustaining improvement

Staff development	**Record any coaching or training that staff can apply in future teaching.**
Equipment and participation	Record how equipment will be maintained and how successful activities will continue.
Access and inclusion	Review participation by year group, sex, SEND and disadvantage to identify gaps.
