

Wenlock CE Academy

French Curriculum Intent, Implementation and Impact

INTENT

- Wenlock CE Academy intends to use the Language Angels scheme of work and resources to ensure we offer a relevant, broad, vibrant and ambitious foreign languages curriculum that will inspire and excite our pupils using a wide variety of topics and themes. All pupils will be expected to achieve their full potential by encouraging high expectations and excellent standards in their foreign language learning - the ultimate aim being that pupils will feel willing and able to continue studying languages beyond key stage 2.
- The intent is that all content will be continuously updated and reviewed annually, creating a dynamic programme of study that will be clearly outlined in both long-term and short-term planning. This will ensure that the foreign language knowledge of our pupils progresses within each academic year and is extended year upon year throughout the primary phase and, in so doing, will always be relevant and in line with meeting or exceeding national DfE requirements.
- The four key language learning skills; listening, speaking, reading and writing will be taught and all necessary grammar will be covered in an age-appropriate way across the primary phase. This will enable pupils to use and apply their learning in a variety of contexts, laying down solid foundations for future language learning and also helping the children improve overall attainment in other subject areas.
- The intent is that all pupils will develop a genuine interest and positive curiosity about foreign languages, finding them enjoyable and stimulating. Learning a second language will also offer pupils the opportunity to explore relationships between language and identity, develop a deeper understanding of other cultures and the world around them with a better awareness of self, others and cultural differences. The intention is that they will be working towards becoming life-long language learners.

IMPLEMENTATION

- All classes will have access to a very high-quality foreign languages curriculum using the Language Angels scheme of work and resources. This will progressively develop pupil skills in foreign languages through regularly taught and well-planned weekly lessons in KS2.
- Children will progressively acquire, use and apply a growing bank of vocabulary, language skills and grammatical knowledge organised around age-appropriate topics and themes - building blocks of language into more complex, fluent and authentic language.
- The planning of different levels of challenge (as demonstrated in the various Language Angels Teaching Type categories) and which units to teach at each stage of the academic year will be addressed dynamically and will be reviewed in detail annually as units are updated and added to the scheme. Lessons offering appropriate levels of challenge and stretch will be taught at all times to ensure pupils learn effectively, continuously building their knowledge of and enthusiasm for the language(s) they are learning.
- Early Language units are entry level units Year 3 pupils or pupils with little or no previous foreign language learning. Intermediate units increase the level of challenge by increasing the amount and complexity (including foreign language grammar concepts) of the foreign language presented to pupils. Intermediate units are suitable for Year 4-5 pupils or pupils with embedded basic knowledge of the foreign language. Progressive and Creative Curriculum units are the most challenging units and are suitable for Year 6 pupils or pupils with a good understanding of the basics of the language they are learning.
- Units, where possible and appropriate, will be linked to class topics and cross curricular themes. Children will build on previous knowledge gradually as their foreign language lessons continue to recycle, revise and consolidate previously learnt language whilst building on all four language skills: listening, speaking, reading and writing.
- To ensure children are progressing their foreign language learning skills and are taught appropriate grammar at the right time in their foreign language learning journey. Grammar rules and patterns will be taught by level of challenge.

IMPACT

- The school has a unit planner in place which will serve as an overall ‘teaching map’ outlining for all teachers within the school what each class in each year group will be taught and when it will be taught. Each class in each year group will have an overview of units to be taught during the academic year to ensure substantial progress and learning is achieved. Each teaching unit is divided into 6 fully planned lessons.
- Units are progressive within themselves as subsequent lessons within a unit build on the language and knowledge taught in previous lessons. As pupils progress through the lessons in a unit they will build their knowledge and develop the complexity of the language they use. We think of the progression within the 6 lessons in a unit as ‘language Lego’. We provide blocks of language knowledge and, over the course of a 6 week unit, encourage pupils to build more complex and sophisticated language structures with their blocks of language knowledge.
- As well as each subsequent lesson within a unit being progressive, the teaching type organisation of Language Angels units also directs, drives and guarantees progressive learning and challenge. Units increase in level of challenge, stretch and linguistic and grammatical complexity as pupils move from through Intermediate units and into the most challenging Progressive units. Units in each subsequent level of the teaching type categories require more knowledge and application of skills than the previous teaching type. Activities contain progressively more text (both in English and the foreign language being studied) and lessons will have more content as the children become more confident and ambitious with the foreign language they are learning.
- Pupils will continuously build on their previous knowledge as they progress in their foreign language learning journey through the primary phase. Previous language will be recycled, revised, recalled and consolidated whenever possible and appropriate.
